[PROBLEM STATEMENTS](#)

1. Background

In recognition of the invaluable contributions of women in the fields of Science, Technology, Engineering, and Mathematics (STEM), the IEEE MANIT Student Branch(IEEE-MSB) has come up with an ideathon under samwad23. The objective is to gather a collection of innovative ideas from the students and, look for possible solutions to address the issue.

2. Submission Theme

This years' theme will be revealed soon after the results of quiz are announced. We invite the selected teams to join the discussion and imagine a possible way to tackle the real-life problems. We hope that in the era of generative AI, human imagination can interact with AI to create a game changing solution future.

3. Application Eligibility

Individuals or teams, irrespective of age or nationality. Maximum of one submission is allowed. Also, same person cannot be associated with more than one team.

4. Application Period

Open from **October 21,2023 to October 28,2023**

5. Submitted Content

You may choose to use texts, pictures, or/and photos. Contents should include:

- (1) Title (required): maximum 80 English letters.
- (2) Content (required): should adequately present the solution.
Candidates are advised to keep it short and precise.
- (3) Attachments: in the presentation the teams are **free to use images, audio and videos**. The team must also **submit a video** in which the idea is being explained. The video also carries a significant weightage.
- (4) Plagiarism: Submitted content must be innovative. Teams may use references but exact same submission may lead to

disqualification.

(5) The link to sample ppt is: [SUBMISSION TEMPLATE](#)

The teams can find the template in the ppt however for the ease of understanding the screenshots are also provided below.

(6) The sample is provided below **(for reference purpose only)**.

The teams are required to make presentation according to the sample.

The **video link is required**, and your application will be deemed incomplete without it. **Github links and prototypes are optional**, although those who submit them will receive **bonus points**.

 **IDEATHON** 

Basic Details of the Team and Problem Statement

Organisation name/student Innovation :
Problem statement Title:
Team Name:
Team Leader Name:
Institute Code(AISHE):
Institute Name:

Idea /Approach Details:

 Describe your idea / solution / Prototype (optional) here:

Add simulated image of prototype / any relevant image related to your idea

Describe Technology related to your Idea here:
How technology is used in solution idea?

Daily life Implementation:

Situation Before:

Situation after implementing Idea:

Team Members details:

Team Leader Name:

Branch: Stream: Year:

Team Member 1 Name:

Branch: Stream: Year:

Team Member 2 Name:

Branch: Stream: Year:

Team Member 3 Name:

Branch: Stream: Year:

- You can add atmost 6 more slides to this template
- Your presentation can begin right here

Some important points related to presentation:

- Kindly **keep Maximum slides limit to 10** only including the first four slides in the template link given above and file size must **not exceed 50 MB**.
- The idea must be Technically feasible and its functional description must be explained properly with the help of PPT
- Try to avoid paragraphs and explain your ideas in points
- Keep your explanation precisely and easy to understand
- Idea should be unique and clear to point
- Along with the PPT, a supplementary **video explanation** that must not last longer than **5 to 6 minutes** must be submitted, along with the **URL to the drive** or an **unlisted YouTube video**.

6. Submission Procedure

7. Evaluation Procedure

A) The evaluation will be based on:

1. Innovation: Judges assess the uniqueness and creativity of the idea, looking for innovative solutions.

2. Feasibility: The idea should be practical and implementable in the real world.

3. Impact: The idea's potential to make a significant and positive difference in addressing the problem is a crucial factor.

4. Presentation: Effective communication of the concept and its value, including clarity, engagement, and persuasiveness, is essential.

5. Scalability and Sustainability: The idea's potential to scale up and adapt to changing circumstances for long-term viability is considered, as well as any ethical and legal compliance.

B) All unique and promising solutions that effectively address the challenge will be selected for recognition and potential support, following the evaluation process.

C) The winners will be unveiled via the Unstop platform.

8. Important Notices

1. The participant should ensure originality of submissions; the reproduction, revision, plagiarism, or counterfeiting of any existing works, and the infringement of any intellectual property or any rights of others is prohibited. Once such cases are reported and proved true, the reported participant will have their eligibility for awards revoked and be asked to return any cash awards and certificates received.
 2. The organizer and executive organizer reserve the right of final explanation regarding the number of awards given in each round. Please see the Ideathon website for the most updated information, besides which no further notices will be made.
 3. It is presumed that the participant understands and agrees to comply with all terms in the Guidelines; any omission shall be subjected to the regulations or explanations of the organizer and executive unit published on the Ideathon website.
 4. Personal data of the participant collected by the executive unit are used for contact and further research/analysis. The participant may request to inquire/read, copy, supplement/correct, stop the collecting/ processing of, or delete the data.
 5. Participants passing each round and granted awards must attend relevant important events, including the evaluation process, and the award ceremony; when unable to attend due to factors beyond one's control, they should notify the organizer in advance, who will make appropriate arrangements.
